To Whom It May Concern:

This is a letter to express how I have enjoyed working with Arthur Marshall. I have found their company to be both professional and successful in finding physicians. They helped me find an Internal Medicine Physician last year and he has been very successful in our community.

I had worked with Arthur Marshall once before in the past. I knew I could count on their professional service and detail oriented search process. They made sure that each candidate fit the specific criteria we had discussed. I never felt like I was wasting my time with any of the candidates presented.

I know how hard it is to recruit physicians to rural areas. The staff of Arthur Marshall are experienced in dealing with all kinds of communities. They make sure the physician is well aware of the community and what it has and doesn't have to offer.

The Arthur Marshall staff also helped me a great deal with the interview process by giving me ideas for the time I would spend with the candidates. The physician I hired was ready to sign an agreement by the end of his 2 day visit.

It is a great feeling to have a good medical staff in an area such as mine. I thank Arthur Marshall for their expert service in helping me recruit. I will definitely call on them in the future if I have another need for a new physician.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Farrell", is written over the printed name.
